# **KSU In Tuscany Learning Communities**

## **A Virtual Italian Experience**

Each of these two-course learning communities are themed around internationalization, the university's commitment to preparing students for a globalized world and KSU's Educational Site in Montepulciano Italy. Providing courses that are broadly foundational to all disciplines, students have the opportunity to learn with faculty, and administrators who have diverse, multi-year experiences teaching, living and working at our world-class facility in this southeastern Tuscan town.
